

vs 3.0

What's new?

1. Complete overhaul of the UI – based on best practices and keeping the app intuitive top of mind.
2. Mobile Responsive
3. Setup and Administration available post install
4. Logo upload to be visible on admin panels
5. Service Boddy address information and contacts
6. New pathways to adding, editing and deleting meetings

Lets take a look

these screens are not final , it will evolve
